

State of Vermont Participating Dealer Agreement

Participating Dealer Agreement for New PEVs and Replace Your Ride Offering Point-of-Sale or -Lease Incentives

This agreement defines the terms under which the Center for Sustainable Energy (CSE), as program implementers for both the State of Vermont's New Plug-In Electric Vehicle (PEV) Incentive Program and Replace Your Ride (RYP) Incentive Program, will reimburse an automobile dealer signing this agreement (Dealer) for eligible consumer purchases or leases of eligible all-electric and plug-in hybrid electric vehicles, and for the scrapping of all eligible Internal Combustion Engine (ICE) vehicles. These incentive programs are known as the "State New PEV Incentive Program" or "New PEV Program" and "State of Vermont Replace Your Ride Program" or "RYP Program" respectively.

The New PEV Program initially launched December 16, 2019, and the RYP Program launched September 14, 2022. In the event either Program goes dormant between the exhaustion of funds and the availability of any future funding, the Vermont Energy Investment Corporation (VEIC) will post on the Drive Electric Vermont (DEV) website that incentive funding has been suspended, and incentives will not be available after either or both of the Programs have been suspended. The State of Vermont's Agency of Transportation (VTrans) or its designee will notify participating dealers of Program re-launch dates following program suspensions.

Roles and Agreement Principles

The Program will be offered by [CSE](#) with support from [VEIC](#), the non-profit coordinating the [DEV](#) program. VEIC is assisting [VTrans](#) and CSE in providing training, reporting, and promotion of the State Incentive Program.

To establish the cooperative partnership necessary to coordinate the roles of Program implementation, CSE will:

- Provide incentive payments to Dealerships for eligible Electric Vehicle sales and leases as specified in the "Program Guidelines" and according to the schedule in Table 1 (for new PEV purchases) for the State of Vermont New PEV Incentive Program.

- Provide incentive payments to Dealers for eligible scrapped vehicles in conjunction with the purchase or lease of a new or used eligible PEV (as specified in “Eligibility Requirements” below) according to the schedule in Table 1 (for new PEV purchases) or Table 2 (for used PEV purchases) for the State of Vermont Replace Your Ride Program.

VEIC will:

- Provide training opportunities for Dealers to learn about the Program.
- Promote the Program and participating dealerships on the Drive Electric Vermont website.
- Post a notice on its DEV webpage for the Program alerting applicants when remaining funding is limited.

For the State New PEV Incentive Program the Dealer agrees to:

- Ensure that all vehicle sales under the Program meet the following Eligibility Requirements:

 - The new vehicle must be sold or leased as new and not previously registered.

- Provide the appropriate incentive amount to the purchase/lease down payment at time of sale/lease, making customer aware the State of Vermont New PEV Incentive Program was responsible and indicating this on the purchase/lease agreement. If dealership documentation systems do not have the ability to itemize down payment contributions to clearly show the State of Vermont incentive amount, we will accept the completed and signed Consumer Attestation Form as confirmation the incentive was applied properly, and the consumer is aware of the origin of the funds.
- Be responsible for any tax issues associated with payment of incentives.
